NEENAH COLDENHOVE

NEENAH COLDENHOVE HEAT TRANSFER PAPERS

For transfer to all fabrics, mousepads, coasters, puzzles, leather, binders, scrapbook covers, art papers, wood, and stone goods.

We have been an industry leader in the creation, development and improvement of heat transfer products since our first patent was granted in 1980.

In fact, we are the only company to control the entire manufacturing process from "Tree to TTM". Our history includes the earliest thermal and laser products in the mid-1980s, followed by inkjet, laser and other digitally printable products, dark fabric and self-weeding transfer products and a continuing pipeline of advancements due to our large and diverse R&D team.

Producing and selling decorated T-shirts and memorabilia is a profitable business with a low cost of entry and easy production. With the global market for custom printed t-shirts exceeding \$2 billion dollars, there are endless opportunities to succeed in this market. T-shirts, sweatshirts, canvas bags and hats are used to promote businesses, events, schools, teams, churches, and other organizations.

"Message Wear" has become a popular trend all over the world and will continue to grow. Images, thoughts, and popular sayings have become a common way to be fashionable, yet casual. Many people from all walks of life collect decorated T-shirts and hats, and they can quickly gain sentimental value.

Produced with TECHNI-PRINT EZP®

Using our Heat Transfer products will ensure:

- Excellent quality with good color reproduction.
- Hand and aesthetics that rival screen printing and Direct-To-Garment printing.
- Low cost of entry.

- Durable art and messages that will withstand many wash cycles.
- Ability to print on a wide range of substrates including; cotton, cotton blends, synthetics, denim, leather, mugs, hats, wood, acrylics, and glass substrates, among many others.

EXOSTENCIL®Screen Prep Paper

EXOSTENCIL® Screen Prep Paper is a revolutionary, environmentally friendly, "Chemical Free" way to make and reclaim screens. This simple, two step process eliminates the need for big investments, allowing you to get into production in just minutes. This process for manufacturing screens is appropriate for mesh counts from 85 – 230.

Equipment Needs: Laser Printer and Heat Press

Screens can be prepared in 10 minutes, with no exposure time

No chemicals needed

Produced with EXOSTENCIL®
